

# DAVID TICKTON

1948 —

ONE: c major:

David Tickton was born  
on April 17, 1948: In Doctor's  
Hospital: Washington: DC: USA: David  
Tickton's favorite activities as a child were playing:  
Baseball: Cars: Trucks: Cowboys: Indian: David Tickton's  
first jobs were delivering newspapers and his lemonade stand: David  
Tickton's mother was born in Minneapolis: Minnesota: USA: David Tickton's  
father was born in Detroit: Michigan: USA: As a Child David Tickton lived in Arlington:  
Virginia: USA: Great Neck: New York: USA: Denver: Colorado: USA: Ann Arbor: Michigan: USA:  
As a child David Tickton loved: Baseball: Friends: Warm Days: Grass: Laughing: Candy TV: Cake: Reading  
The Hardy Boys and the Pony Express: Now: As an Adult David Tickton loves: His girlfriend: Playing music with  
friends and friends in general: Looking at things growing: The Sky: His computer: Composing and arranging music on  
Finale PC: Playing the Flute: David Tickton enjoys blowing a rapid jet of air across the embouchure hole on his flute: The  
pressure inside David Tickton's mouth is above atmospheric: The work done to accelerate the air in this jet is the source of  
power input to David Tickton's flute: David Tickton enjoys providing power to his flute continuously: In his flute the Ticktonic  
airjet in cooperation with the resonances of the air in the Ticktonic flute produces a mysterious oscillating component of the  
flow: Once the air in the flute is vibrating some of the energy is radiated as sound out of the end and any open holes of the  
flute: A much greater amount of energy is lost as a sort of friction with the wall of the flute: In a sustained note  
this energy is replaced by energy happily breathed in by David Tickton: The vital column of air in the Tickto  
nic flute vibrates much more easily at some frequencies than at others: These resonances largely deter  
mine the playing frequency and thus the pitch: David Tickton chooses with delight the desired set  
of resonances by fingering of a suitable combination of subtly padded easy keys: Then: A strange  
vaporous being with bells and birds and monkees an cats and butterflies and elephants  
and cranes whistling all over it appear under the finger tips and over in the air  
about the flute of Tickton: David Tickton's favorite animals are Elephants  
and Giraffes: Especially those with nineteen or more holes on their  
trunks or necks: David Tickton's favorite idea is: Self: Life is  
a series of moments: Love and bring as much of your Self as  
possible to each moment: David Tickton's favorite objects  
are his flute and a picture of two roses: David Tickton  
earns his living teaching flute to the stars in a secluded  
dark cottage surrounded by dwarf trees: Imaginary toads:  
A variety of wisdom idiots in Berkeley: California: USA:  
The aim of the art of David Tickton is to play and write  
music from the deepest part of his Self that is beautiful  
and nurtures his life and other lives: The aim of the life  
of David Tickton is to live: To be of service to life:  
And to live from the deepest sense of his Self:  
And now I will say farewell to you:  
And I will sing of another jolly industrious  
gold silver up side down right side up

# DAVID TICKTON

1948 —

EIGHT: b: c: d: e:

David Tickton was born on April 17, 1948 in Washington, DC. His favorite activities are playing

baseball, cars, trucks, computers and his lemonade stand. David Tickton's mother was born in Detroit, Michigan. As a child David Tickton lived in Arlington, Virginia, USA; Great Neck, New York, USA; Denver, Colorado, USA; Ann Arbor, Michigan, USA. As an adult David Tickton loves his girlfriend, playing music with his flute. The air in this jet is the source of continuous power to his flute. David Tickton enjoys providing energy to his flute. Once the air in the flute is vibrating some of the energy is radiated. A much greater amount of energy is lost as a sort of friction with the wall of the flute. In a sustained note David Tickton chooses with delight the desired combination of subtly padded easy keys. Then a strange and monky cat and butterfly and elephant under the finger tips and over in the air on's favorite animals are elephants, more holes on their is: Self: Life is Self as acts

# DAVID TICKTON

1948 —

TEN: a: g: f: e: d:

David Tickton was born on April 17, 1948 in Detroit, Michigan. He is a child of David and Virginia. He loves baseball, friends, and playing the flute. He enjoys providing power to his flute in cooperation with the resonances of the air in the Ticktonic flute.

David Tickton was born on April 17, 1948 in Detroit, Michigan. He is a child of David and Virginia. He loves baseball, friends, and playing the flute. He enjoys providing power to his flute in cooperation with the resonances of the air in the Ticktonic flute.

David Tickton's mother was born in Minneapolis, Minnesota. As a child, David Tickton loved baseball, friends, and playing the flute. He enjoys providing power to his flute in cooperation with the resonances of the air in the Ticktonic flute. Once the air in the flute is vibrating, some of the energy is radiated from the flute. A much greater amount of energy is lost as a sort of friction. This energy is replaced by energy from the player's breath.

David Tickton's mother was born in Minneapolis, Minnesota. As a child, David Tickton lived in Arlington, Massachusetts. He loves reading, playing music, and arranging music on his flute. The air in this jet is the source of a mysterious oscillating component of the sound that comes out of the end of the flute. In a sustained note, the vital column of air in the Ticktonic flute vibrates more easily at some frequencies than at others. These resonances largely determine the pitch of the sound. David Tickton chooses with delight the desired combination of subtly padded keys. Then, a strange and wonderful sound comes out of the finger tips and over in the air. These resonances are elephants, cats, and butterflies. There are often more holes on their flutes. Self: Life is.

**NOTE:**

# FALLS HOUSE PRESS

<http://www.mv.com/ipusers/true/fallshousepress/index2.html>

<p><b>Mozart, Wolfgang A.</b></p> <p><b><i>Concerto in C Major for Flute &amp; Harp</i></b>, for 3 flutes or 2 flutes and alto flute with all parts included <b>(Arr. by David Tickton)</b></p> <p>Mozart's magnificent Concerto for Flute and Harp is now available as a chamber ensemble. Here flutists can enjoy playing both the soaring solo flute line, as well as the wonderful counterpoints and beautiful melodies of the harp. This version captures much of the joy and excitement of the original and is excellent for students studying or preparing to perform this piece. This trio is also just great fun to play as a chamber work.</p>	<p>Cat.#3F-T5...\$22.00</p>
<p><b><i>Concerto in D Major</i></b>, for 3 flutes. <b>(Arr. by David Tickton)</b></p> <p>Mozart's wonderful D major Concerto is beautifully arranged for 3 flutes. While the melody soars in the first flute, the second and third flutes capture the beautiful harmonies, melodic figurations and counterpoints of the orchestra. This arrangement is excellent as a chamber work or in preparation for performing the concerto.</p>	<p>Cat. #3F-T2...\$16.00</p>
<p><b><i>Concerto in G Major</i></b>, for 3 flutes. <b>(Arr. by David Tickton)</b></p> <p>Mozart's wonderful concerto is now available in a chamber music setting. This version captures much of the emotion and color of the original orchestral work, is excellent for students studying or preparing to perform this concerto, and is just fun for a trio to perform.</p>	<p>Cat. #3F-T1...\$16.00</p>

## **Bach, J.S.**

***Concerto in D Minor (for two violins)***, for 3 C flutes or 2 flutes and alto flute, with all parts Included.  
**(Arr. by David Tickton)**

This stunning piece works beautifully as a trio, as the three flutes, equally matched and completely independent of each other, respond back and forth with fugue like entrances and imitative counterpoints.

Cat. #3F-T6...\$24.00

***Sonatas No. 1-3***, for 3 C flutes or 2 flutes and alto flute, with all parts included.  
**(Arr. by David Tickton)**

The Bach Sonatas for Flute and Keyboard are in B Minor, Eb Major and A Major. These terrific pieces, at the heart of the repertoire, allow flutists to play and experience the beauty of the accompanying piano parts. This arrangement can be of great help to a flutist, preparing to perform these sonatas, in learning the accompaniment. These works are also very beautiful as trios to play and enjoy.

Cat. #3F-T7...\$30.00

## **Kuhlau, Friedrich**

***Three Trios, Op. 13***, for 3 C flutes or 2 flutes and alto flute with all parts included.  
**(Arr. by David Tickton)**

This edition provides a much needed score for these outstanding chamber works. An alternative 3rd Flute part for alto Flute works very well, expanding further the literature for the Alto. The included score allows for a much stronger Understanding of the beautiful counterpoints and rich harmonies of these excellent trios.

Cat. #3F-T8...\$35.00
